

ALBWARDY DAMEN

DUBAI – SHARJAH – FUJAIRAH

**ALBWARDY DAMEN**

Welcome to Albwardy Damen, a joint venture between Albwardy Investment, Dubai and the Damen Shipyards Group, Holland. Both family owned companies with a long history. We provide shipbuilding and ship repair services to the marine and oil and gas related industries in the Middle East.

## WELCOME

We have a total workforce of around 1100 people of 26 different nationalities in our four UAE locations: Dubai, Sharjah and Fujairah. These people are our biggest asset and we are proud that 25% of our staff has been with us for 25+ years.

With all key competences in-house, including an extensive engineering division, we repair and build vessels to the highest technical and environmental standards. We are certified by LRQA to ISO 9001:2015, ISO 14001, OHSAS 18001 as well as API Q1.

Our services include newbuilding of steel and aluminum vessels and repair and services of marine as well as O&G assets. We also offer offshore and afloat repair services to clients worldwide. Our diving division offers their services out of Fujairah including underwater hull cleaning.

I look forward to welcoming you to one of our locations here in the UAE.

LARS SEISTRUP, MANAGING DIRECTOR

- Hull and deck steel repairs including pipework;
- Pipe (pre)fabrication in CNC pipeshop or on board;
- Hydro-blasting and painting work;
- Mechanical, hydraulic and electrical works;
- 2 stroke and 4 stroke engine overhauls;
- Complex repairs, damage repairs, and conversions afloat;
- Ballast water retrofits on location.

## HARBOUR & VOYAGE

Our extensive workshops in Dubai, Sharjah and Fujairah serve as a base for our Afloat Repairs Division. CDC & BOSIET Certified Riding squads are available to meet customer requirements on board vessels in all UAE ports and anchorages, as well as on vessels underway anywhere in the world.

Our repair portfolio includes hull and deck steel repairs including pipework, hydro-blasting and painting works, mechanical works such as engine overhauling, hydraulic and electrical works.

We undertake complex projects – modifications, damage repairs, and conversions afloat. We have layby berths available up to VLCC size for clients looking for a cost effective alternative to a drydock. Having engineering, as well as a CNC pipeshop, in-house allows us to carry out large scale retrofits, such as ballast water management systems, quickly and efficiently. We can execute projects of any kind, from complete turnkey work, to installation of equipment provided by the client.

AFLOAT REPAIRS IN ALL UAE PORTS AND ANCHORAGES  
OR UNDERWAY, ANYWHERE IN THE WORLD

Dry Dockings and ship repairs are offered from our locations in Sharjah, Dubai and Fujairah. With all major trades in-house we offer steel, aluminum, mechanical, carpentry, blasting, painting, hydraulic and electric repairs mainly carried out by our own staff.

Our largest operation, Albwardy Damen – Sharjah can Dry dock vessels up to 120 meters LOA. The yard is conveniently located in the Sharjah Hamriyah Free-zone with unrestricted access to the sea. Just like Dubai, this yard is ideally positioned for easy access to all seven Emirates as well as providing connections to neighboring Gulf States closer to the Straits of Hormuz.

## MARINE AND O&G REPAIRS

Within the oil & gas business, we focus on repairs and conversion of assets such as rigs, complex offshore ships etc. We are certified to ISO 9001, 14001, 18001 and API and pre-Qualified by all major rig operators in the region. Our 2014 opened yard allows us to do things safe, fast and efficient.

Projects carried out to date include SPM refurbishments, Lift boat refurbishments, Leg/Bracing repairs, and overhauls of offshore cranes.

## NEWBUILDING

Albwardy Damen has state-of-the-art facilities for the construction of all types of modern and complex vessels.

Supported by Damen quality building technology we build Damen as well Non-Damen designs in steel and aluminum up to 120 metres.

Our recent projects include tugs, workboats, pontoons, dredgers, fast crew suppliers and a self-propelled lift boat. Our customers in the region are supported by our regional service hub, which provides warranty and aftersales support.

Damen's focus on standardisation, modular construction and keeping vessels in stock leads to short delivery times, low total cost of ownership, reliable performance and high resale values.

- Damen and non-Damen designs
- Experienced design & engineering team
- Uncompromising Safety and quality standards
- State-of-the-art covered newbuilding facility
- Enclosed blasting and painting facility
- Automatic CNC cutting and pipe bending machines
- Launching facility for vessels up to 120 metres
- Full warranty and after sales support

# DIVING

Albwardy Diving Services has been serving the marine industry since 1995, with safety being our first priority. ADS's main base is in Fujairah Port, serving all UAE ports and anchorages. We also carry out our full range of diving services in Salalah, Sultanate of Oman.

We have undergone extensive trial and are approved by the main paint suppliers to carry out underwater cleaning of conventional antifouling paint as well as the latest silicone-based hull paints.

We have vast experience in propeller polishing, underwater hull inspections and class approval surveys (all class societies).

Underwater blanking, wet and dry welding and anchor recovery are amongst our main services. The division currently has a team of more than 25 certified commercial divers. Ongoing training has led to six divers now being HSE1 qualified and two trained for underwater welding. We also operate two customised diving boats to support our underwater teams.

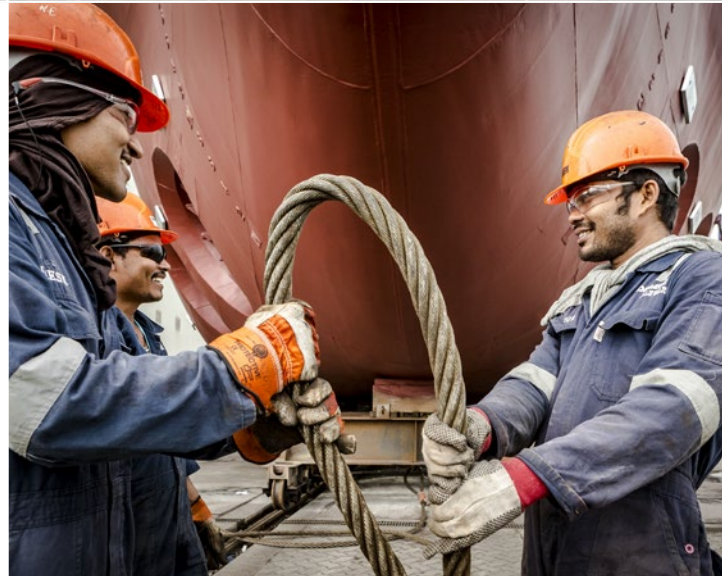

Our modern, well-equipped workshops are run by a dedicated team of professionals, with many years experience and capable of handling a multitude of jobs, including steel and aluminium work, piping, mechanics, electrics, hydraulics, carpentry and specialist services.

Our workshops in Dubai, Fujairah and Sharjah are equipped with a range of tools and machines for ferrous and nonferrous materials, including repair of propellers.

We offer machinery and engine overhauls , 2-stroke and 4-stroke. Our electrical workshop offers rewinding of electric motors and transformers of up to 1800 KVA.

## SPECIALISED WORKSHOPS

### REPRESENTATIONS

### CERTIFICATES
